

TITLE OF YOUR PROJECT

YOUR NAME

ABSTRACT. A short (around one paragraph) summary of your writeup goes here.

1. INTRODUCTION

Introduce the topic, motivations, background, etc. You can have in mind your 18.676 classmates as your intended audience. Introduce some particulars of your topic that you will explore in more detail in subsequent sections. This section might run around 1 page.

2. ANOTHER SECTION

Go into some aspect of the topic in more detail. This might be another 1-2 pages.

2.1. **A subsection.**

2.2. **Another subsection.**

3. ANOTHER SECTION (OPTIONAL)

Go into some other aspect of the topic in more detail. This might be another 1-2 pages.

4. CONCLUSIONS

A short summary of what you discussed and learned. This might be about half a page.

Further guidelines.

- The entire writeup should be at least 5 pages in this template, not including bibliography. You are welcome to write more but 5 pages is the minimum.
- You must include a bibliography and properly cite all references used.
- A well written exposition should address both intuition and mathematical formalism.
- If you have additional questions, please get in touch!
